-----------	---------

---

**Included:** consultation, STD

**Not included:** anaesthesia, recovery room

---

## **PREIMPLANTATION GENETIC DIAGNOSIS**

---

Biopsy of cells for PGS/PGD with no limit of number of embryos	430 €
--	-------

---

Performances necessary in connection with PGS/PGD	1 330 €
---	---------

**Included:** ICSI up to 10 oocytes, Prolonged cultivation of embryos, Time-lapse, Assisted Hatching, Embryogluce

---

Preimplantation diagnosis of 24 chromosomes (PGS) by arrayCGH method or NGS method up to 4 embryos **2 000 €**

---

Preimplantation diagnosis of 24 chromosomes (PGS) by arrayCGH method or NGS method of 5-8 embryos **3 000 €**

---

Preimplantation diagnosis of 24 chromosomes (PGS) by arrayCGH method or NGS method of each exceeding embryo **300 €**

---

**Preimplantation diagnosis of monogenic disease (by indirect genetic diagnosis - PHG)**

---

Method preparation, testing for the family (before 1st PGD cycle only) **500 €**

---

Method preparation, testing on sperm in case de novo mutation **1 000 €**

---

PGD of embryos **2 700 €**

---

**GENETICS**

---

Genetic Compatibility Test **310 €**

---

**ENDOMETRIUM RECEPTIVITY ARRAY**

---

ERA-1 Basic price - Examination of the first patient sample **1 100 €**

(including interview, sampling including consultation with regard to the indication and the results of the examination, endometrial sampling pipeline, sampling kit, transport/postage)

---
