

PRICE LIST

IVF	
Complete IVF cycle	EUR 2 000
Payment on the day of consultation at the start of the cycle	EUR 100
Payment on the day of scheduling stimulation	EUR 100
Payment on the day of oocyte collection	EUR 1 150
Payment on the day of ET	EUR 650
Included: consultation at the start of the IVF cycle, gynaecological examination, creating stimulation protocol, ultrasound controls during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ET incl. Echo-catheter	
Not included: medication, STD, anaesthesia and recovery room, other additional laboratory methods, cryopreservation/vitrification/storage of embryos	
Complete IVF cycle including additional laboratory methods – PACKAGE I.A (EUR 50 discount)	EUR 2 650
Payment on the day of consultation at the start of the cycle	EUR 100
Payment on the day of scheduling stimulation	EUR 100
Payment on the day of oocyte collection	EUR 1 800
Payment on the day of ET	EUR 650
Included: consultation at the start of the IVF cycle, gynaecological examination, creating stimulation protocol, ultrasound during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ET incl. Echo-catheter, anaesthesia and recovery room, ICSI up to 10 oocytes, prolonged cultivation of embryos	
Not included: medication, STD, cryopreservation/vitrification/storage of embryos	
Complete IVF cycle including additional laboratory methods, medication and transport packet– PACKAGE I.B (EUR 50 discount)	EUR 3 900
Payment on the day of consultation at the start of the cycle	EUR 100
Payment on the day of scheduling stimulation	EUR 1 350
Payment on the day of oocyte collection	EUR 1 800
Payment on the day of ET	EUR 650
Included: consultation at the start of the IVF cycle, gynaecological examination, creating stimulation protocol, ultrasound during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ET incl. Echo-catheter, anaesthesia and recovery room, ICSI up to 10 oocytes, prolonged cultivation of embryos, medication (2250 IU) + up to 6x LH injection, transport packet	
Not included: STD, cryopreservation/vitrification/storage of embryos	

Complete IVF cycle including additional laboratory methods – PACKAGE II.A (EUR 250 discount)	EUR 3 150
Payment on the day of consultation at the start of the cycle	EUR 100
Payment on the day of scheduling stimulation	EUR 100
Payment on the day of oocyte collection	EUR 1 950
Payment on the day of ET	EUR 1 000
Included: consultation at the start of the IVF cycle, gynaecological examination, creating stimulation protocol, ultrasound during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ET incl. Echo-catheter, anaesthesia and recovery room, ICSI up to 10 oocytes, prolonged cultivation of embryos, EmbryoGlue, Time-lapse, Assisted Hatching	
Not included: medication, STD, cryopreservation/vitrification/storage of embryos	
Complete IVF cycle including additional laboratory methods, medication and transport packet– PACKAGE II.B (EUR 250 discount)	EUR 4 400
Payment on the day of consultation at the start of the cycle	EUR 100
Payment on the day of scheduling stimulation	EUR 1 350
Payment on the day of oocyte collection	EUR 1 950
Payment on the day of ET	EUR 1 000
Included: consultation at the start of the IVF cycle, gynaecological examination, creating stimulation protocol, ultrasound during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ET incl. Echo-catheter, anaesthesia and recovery room, ICSI up to 10 oocytes, prolonged cultivation of embryos, EmbryoGlue, Time-lapse, Assisted Hatching, medication (2250 IU) + up to 6x LH injection, transport packet	
Not included: STD, cryopreservation/vitrification/storage of embryos	
Frozen embryo transfer (own frozen embryos)	EUR 700
Included: consultation prior to frozen embryo transfer, ultrasound, thawing of embryos, Echo-catheter, recovery room	
Not included: medication	
DONOR PROGRAM with fresh donor eggs – with guarantee	
IVF cycle donor eggs – PACKAGE I.	EUR 5 300
Payment on the day of consultation (includes initial consultation and all administration of the donor)	EUR 200
Payment on the day of assigning the donor	EUR 2 500
Payment on the day of donors' oocyte collection	EUR 1 800
Payment on the day of ET	EUR 800
Included: medical examination, anaesthesia and recovery room for the donor; medication, co-ordination fee, ET incl. Echo-catheter, recovery room, sperm analysis, sperm preparation for ICSI up to 10 oocytes, prolonged cultivation of embryos	
Not included: medication of the patient, cryopreservation/vitrification/storage of embryos	
The guarantee guarantees the patient at least 2 embryos in the blastocyst stage (5th day of cultivation). The prerequisite is sufficient sperm quality. If the patient receives only 1 blastocyst and does not become pregnant (confirmed heart action), she will be provided with at least 1 additional embryo as part of an asynchronous cycle (i.e. 1 embryo in the blastocyst stage using another donor's oocyte).	

IVF cycle with donor eggs – synchronous cycles / fresh cycles – PACKAGE II.	EUR 5 750
Payment on the day of consultation (includes initial consultation and all administration of the donor)	EUR 200
Payment on the day of assigning the donor	EUR 2 500
Payment on the day of donors' oocyte collection	EUR 2 250
Payment on the day of ET	EUR 800
Included: medical examination, anaesthesia and recovery room for the donor; co-ordination fee, ET incl. catheter, recovery room, sperm analysis, sperm preparation for ICSI up to 10 oocytes, prolonged cultivation of embryos, EmbryoGlue, Time-lapse, Assisted Hatching	
Not included: medication of the patient, cryopreservation/vitrification/storage of embryos	
The guarantee guarantees the patient at least 2 embryos in the blastocyst stage (5th day of cultivation). The prerequisite is sufficient sperm quality. If the patient receives only 1 blastocyst and does not become pregnant (confirmed heart action), she will be provided with at least 1 additional embryo as part of an asynchronous cycle (i.e. 1 embryo in the blastocyst stage using another donor's oocyte).	
Frozen embryo transfer of donor embryos (1 embryo)	EUR 1 500
Payment prior to stimulation	EUR 800
Payment on the day of ET	EUR 700
Included: Consultation, ultrasound, thawing of embryos with subsequent cryoembryo transfer, recovery room, Echo-catheter	
Not included: medication	
Frozen embryo transfer of donor embryos (2 embryos)	EUR 2 800
Payment prior to stimulation	EUR 800
Payment on the day of ET	EUR 2 000
Included: Consultation, ultrasound, thawing of embryos with subsequent cryoembryo transfer, recovery room, Echo-catheter	
Not included: medication	
ADDITIONAL LABORATORY METHODS AND PROCEDURES	
ICSI on single oocyte	EUR 150
ICSI up to 10 oocytes	EUR 350
ICSI to each oocyte exceeding 10	EUR 35
PICSI on single oocyte	EUR 250
PICSI up to 10 oocytes (incl. ICSI)	EUR 500
PICSI to each oocyte exceeding 10 (incl. ICSI)	EUR 50
Microfluidic Sperm Sorting	EUR 180
Assisted Hatching (regardless of the number of embryos)	EUR 200
Prolonged cultivation of embryos (over 48 hours)	EUR 300
Cryopreservation of sperm, embryos (storage not included)	EUR 220
Cryopreservation of tissue (storage not included)	EUR 350
Discounted cryopreservation of sperm until the end of the ongoing donor program (storage not included)	EUR 50
Vitrification of embryos, oocytes max. 2 straws 1 embryo each (storage not included)	EUR 350

Re-Cryo (included 1 straw, storage not included)	EUR 350
Vitrification of each additional straw (added to cryopreservation)	EUR 100
Vitrification of a single embryo in a single straw	
Charge for storage of cryopreserved material for each commenced year	EUR 150
Charge for storage of cryopreserved material with positive STD tests or without STD tests for each calendar year commenced	EUR 200
Export of samples from our center – administration fee	EUR 200
Time-lapse (continuous embryo monitoring, consultation)	EUR 300
EmbryoGlue	EUR 200
Embryogen	EUR 200
SOCIAL FREEZING	
Social freezing - oocytes	EUR 1 800
Payment on the day of scheduling stimulation	EUR 500
Payment on the day of oocyte collection (OPU)	EUR 1 300
Included: consultation, stimulation protocol, STD, ultrasound during the stimulation, oocyte collection, anaesthesia and recovery room, vitrification up to 2 straws including the storage for max. 5 years	
Not included: medication	
Vitrification of each additional straw including the storage for max. 5 years	EUR 100
Completion of the IVF cycle after Social freezing	EUR 1 000
Included: consultation to complete the IVF cycle, gynecological examination, spermiogram, sperm preparation, ICSI up to 10 oocytes, prolonged cultivation, ET	
Not included: stationary, Echocatheter	
ADDITIONAL OUTPATIENT SERVICES	
Summary from medical records at their own request	EUR 100
Scheduling of an optimal stimulation protocol (IVF)	EUR 50
Initial consultation/consultation	EUR 100
Consultation/initial consultation with a doctor specializing in assisted reproduction	EUR 100
Consultation with geneticist (personally, by phone, skype - 60 min)	EUR 100
Consultation with geneticist (personally, by phone, skype - 30 min)	EUR 50
Consultation with urologist, gynaecologist (personally by phone, skype - 60 min)	EUR 100
Consultation with urologist, gynaecologist (personally, by phone, skype - 30 min)	EUR 50
Ultrasound control	EUR 50
STD blood testing (one test)	EUR 80
Guarantee for confirmation STD	EUR 90
hCG	EUR 15
AMH blood test	EUR 40
Hormonal profile	EUR 45
Thyroid hormones	EUR 45
Determination of blood group + Rh factor	EUR 20
HyCoSy	EUR 145
Infusion application	EUR 40

Insemination	EUR 400
Included: consultation, preparation of ejaculate and sperm analysis, insemination catheter	
Not included: ultrasound control and medication	
SURGICAL PROCEDURES	
Anaesthesia (incl. recovery room)	EUR 150
Transvaginal hydro laparoscopy (incl. consultation, anaesthesia, recovery room)	EUR 350
Reduction of multiple pregnancy (incl. recovery room, antibiotics)	EUR 350
Ovarian cyst puncture (inc. consultation, recovery room, <u>not incl.</u> anaesthesia)	EUR 150
Diagnostic hysteroscopy (<u>not incl.</u> anaesthesia)	EUR 350
Operative hysteroscopy (<u>not incl.</u> anaesthesia)	EUR 550
ENTONOX	EUR 50
ANDROLOGY	
Complete Sperm analysis and MarTest (interpretation)	EUR 100
Complete Sperm analysis	EUR 60
Mar Test	EUR 40
Andrological screening	EUR 125
OXISPERM	EUR 60
Immunocytochemical examination of tissues and ejaculate	EUR 150
Donor sperm sample	EUR 200
Test HBA indirect tests for DNA fragmentation, maturity tests	EUR 120
MESA/TESE (included: consultation, STD, <u>not included:</u> anaesthesia)	EUR 1 000
PREIMPLANTATION GENETIC DIAGNOSIS	
Biopsy of cells for PGT with no limit of number of embryos	EUR 490
Performances necessary in connection with PGT	
Payment on the day of oocyte collection	EUR 1 000
Payment on the day of ET	EUR 330
Included: ICSI up to 10 oocytes, prolonged cultivation of embryos, Time-lapse, Assisted Hatching, EmbryoGlue	
Preimplantation diagnosis of 24 chromosomes (PGT-A, PGT-SR) by NGS method up to 4 embryos:	EUR 2 000
Preimplantation diagnosis of 24 chromosomes (PGT-A, PGT-SR) by NGS method of 5-8 embryos:	EUR 3 000
Preimplantation diagnosis of 24 chromosomes (PGT-A, PGT-SR) NGS method of each exceeding embryo	EUR 300
Preimplantation diagnosis of monogenic disease (by indirect genetic diagnosis – PGT-M)	
Method preparation, testing for the family (before 1st PGT cycle only)	EUR 500
PGT-M of embryos by PCR method	EUR 2 700
PGT-A of embryos recommended for transfer after PGT-M (price for each embryo)	EUR 300

PGT-M (karyomapping incl. PGT-A and PGT-SR) method preparation (paid only once)	EUR 1 700
PGT-M (karyomapping incl. PGT-A and PGT-SR) 1 embryo	EUR 440
PGT-M (karyomapping incl. PGT-A and PGT-SR) direct mutation detection	EUR 700
Not incl.: biopsy, prolonged cultivation, AH	
ENDOMETRIAL RECEPTIVITY ARRAY	
ERA-1 Basic price – Examination of the first patient sample (including interview, sampling including consultation with regard to the indication and the results of the examination, endometrial sampling pipeline, sampling kit, transport / postage)	EUR 1 100
ERA-2 Reduced price – Examination of the second sample from the same patient - is claimed if the result of the first sample was pre-receptive or post-receptive, as well as see ERA-1	EUR 900
ERA-3 Reduced price – for the third and further samples from the same patient - is claimed in case of a third and further examination if the results of the first collection were pre-receptive or post-receptive, as well as see ERA- 1 and 2	EUR 700
EMMA (Endometrial Microbiome Metagenomic Analysis)	EUR 900
ALICE (Analysis of Infectious Chronic Endometritis)	EUR 550
EMTRIO EndomeTrio: ERA + EMMA + ALICE	EUR 1 500
Reprognostics test – 1 marker	EUR 245
Reprognostics test – 2 markers	EUR 345
Reprognostics test – 3 markers	EUR 440
Reprognostics – transport of a sample	EUR 110
Immunohistochemical examination of the endometrium (difficulties with embryo implantation and recurrent pregnancy loss) – 1 marker (including sample transport)	
	EUR 125
Immunohistochemical examination of the endometrium (difficulties with embryo implantation and recurrent pregnancy loss) – 2 markers (including sample transport)	
	EUR 210
Immunohistochemical examination of the endometrium (difficulties with embryo implantation and recurrent pregnancy loss) – 3 markers (including sample transport)	
	EUR 300
