

PRICE LIST

IVF with own oocytes	
Complete IVF cycle – PACKAGE 1A	EUR 2 700
Payment on the day of consultation at the start of the cycle	EUR 0
Payment on the day of scheduling stimulation	EUR 500
Payment on the day of oocyte collection (OPU)	EUR 1 600
Payment on the day of embryo transfer (ET)	EUR 600
<p>Included: Consultation at the start of the IVF cycle, gynaecological examination, STD, AMH, hormonal profile, creating of stimulation protocol, ultrasound examination during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ICSI up to 10 oocytes, prolonged cultivation of embryos, ET incl. ECHO-catheter, anaesthesia, recovery room, All-inclusive snack.</p>	
<p>Not included: stimulation medication, other additional laboratory methods according to the current price list, if necessary, cryopreservation of the embryos by vitrification with storage (1 year), deposit for the confirmation of the serological findings</p>	
Complete IVF cycle – PACKAGE 1B with medication	EUR 3 950
Payment on the day of consultation at the start of the cycle	EUR 0
Payment on the day of scheduling stimulation	EUR 1 750
Payment on the day of oocyte collection (OPU)	EUR 1 600
Payment on the day of embryo transfer (ET)	EUR 600
<p>Included: Consultation at the start of the IVF cycle, gynaecological examination, STD, AMH, hormonal profile, creating of stimulation protocol, ultrasound examination during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ICSI up to 10 oocytes, prolonged cultivation of embryos, ET incl. Echo-catheter, anaesthesia, recovery room, All-inclusive snack, stimulation medication (max. 2250 IU FSH + up to 4 ampoules antagonist/agonist injections).</p>	
<p>Not included: Other additional laboratory methods according to the current price list, if necessary, cryopreservation of the embryos by vitrification with storage (1 year), deposit for the confirmation of the serological results.</p>	
Complete IVF cycle including additional laboratory methods - PACKAGE 2A	EUR 3 300
Payment on the day of consultation at the start of the cycle	EUR 0
Payment on the day of scheduling stimulation	EUR 500
Payment on the day of oocyte collection (OPU)	EUR 1 800
Payment on the day of embryo transfer (ET)	EUR 1 000
<p>Included: Consultation at the start of the IVF cycle, gynaecological examination, serology examinations, AMH and hormone levels, stimulation protocol, ultrasound examination during stimulation, semen analysis, sperm processing, oocyte retrieval, ICSI up to 10 oocytes, Time-Lapse, EmbryoGlue, MFSS (Microfluidic sperm sorting), prolonged cultivation, ET incl. Echo-catheter, anaesthesia, recovery room, snack all-inclusive</p>	
<p>Not included: stimulation medication, if necessary, cryopreservation of the embryos by vitrification with storage (1 year), deposit for the confirmation of the serological results.</p>	

Complete IVF cycle including additional laboratory methods - PACKAGE 2B with medication	EUR 4 550
Payment on the day of consultation at the start of the cycle	EUR 0
Payment on the day of scheduling stimulation	EUR 1 750
Payment on the day of oocyte collection (OPU)	EUR 1 800
Payment on the day of embryo transfer (ET)	EUR 1 000
<p>Included: Consultation at the start of the IVF cycle, gynaecological examination, STD, AMH, hormonal profile, creating of stimulation protocol, ultrasound examination during stimulation, sperm analysis, sperm preparation for IVF, oocyte collection, ICSI up to 10 oocytes, Time-Lapse, EmbryoGlue, MFSS (Microfluidic sperm sorting), prolonged cultivation, ET incl. Echo-catheter, anaesthesia, recovery room, all-inclusive snack, stimulation medication (max. 2250 IU FSH + up to 4 ampoules antagonist/agonist injections)</p>	
<p>Not included: If necessary, cryopreservation of the embryos by vitrification with storage (1 year), deposit for the confirmation of the serological results.</p>	
Cryoembryo transfer (own frozen embryos)	EUR 900
<p>Included: Consultation before cryoembryo transfer (KET), gynaecological examination, medication from transfer to hCG test, embryo thawing, ECHO catheter, recovery room, snack All-inclusive.</p>	
<p>Not included: Additional laboratory methods according to the current price list.</p>	
DONOR PROGRAM with donor oocytes	
IVF cycle with donor oocytes - PACKAGE 1	EUR 5 500
Payment on the day of consultation (incl. preparation of treatment plan and medication, processing fee related with the donor selection)	EUR 200
Payment on the day of assigning the donor	EUR 2 500
Payment on the day of donor's oocyte collection (OPU)	EUR 2 000
Payment on the day of embryo transfer (ET)	EUR 800
<p>Included: Initial consultation, anaesthesia and recovery room for the donor, serology tests of the donor and the partner, hormonal profile, stimulation medication for the donor, coordination fee, spermogram, sperm preparation, ICSI of all donated oocytes, prolonged cultivation, ET incl. ECHO catheter, medication for the recipient from transfer to hCG test, expenses for the donor, snack All-inclusive.</p>	
<p>Not included: if necessary, cryopreservation of the embryos by vitrification with storage (1 year), price for any KET (900 EUR) and each next KET, additional laboratory methods according to the current price list.</p>	
<p>The Third Cycle Is on Us: If, after two cycles with donated oocytes (including follow-up CryoEmbryoTransfers - CET), you do not get pregnant (confirmed cardiac event), you will have the opportunity to undergo a third cycle treatment free of charge as part of the last used package. The package is considered exhausted after a CET has been performed on all embryos created within the given package (each CET is subject to payment as per the current price list).</p>	
<p><u>Terms and Conditions:</u></p> <ul style="list-style-type: none"> • <i>The spermogram of the partner should meet the conditions of normozoospermia. Slight deviations from the norm will be consulted individually and are not necessarily an exclusion criterion.</i> • <i>Exclusion criteria on the patient's side: Ashermann syndrome, congenital developmental defects or other existing severe uterine impairments - can be addressed individually during a consultation with a physician.</i> • <i>The possibility of undergoing a third cycle free of charge does not apply if, after the previous treatment,</i> 	

a pregnancy occurs with proven cardiac action in the fetus. Failure of embryo transfer must be documented by negative hCG 14 days after embryo transfer or by ultrasound between 8-10 weeks with evidence of silent pregnancy.

- *The third free cycle must be started within and no later than 24 months after the first embryo transfer of the first completed treatment.*
- *Legislative requirements for the treatment are met (age not exceeding 49 years, etc.)*

Guarantee program

IVF cycle with donor oocytes - PACKAGE 2	EUR 6 800
Payment on the day of consultation (incl. preparation of treatment plan and medication, processing fee related with the donor selection)	EUR 200
Payment on the day of cryopreservation of sperm	EUR 400
Payment on the day of assigning the donor	EUR 2 500
Payment on the day of donor's oocyte collection (OPU)	EUR 3 000
Payment on the day of embryo transfer (ET)	EUR 700

Included: Initial consultation, anaesthesia and recovery room for the donor, serology tests of the donor and the partner, hormonal profile, stimulation medication for the donor, coordination fee, spermogram, sperm preparation, **sperm cryopreservation and vitrification of the embryos - 1 straw** (each additional straw according to the current price list) storage for 1 year, **ICSI of all donated oocytes, prolonged cultivation**, ET incl. ECHO catheter, medication for the recipient from transfer to hCG test, expenses for the donor, snack All-inclusive.

Not included: Price for any KET (900 EUR) and each next KET, additional laboratory methods according to the current price list.

Guarantee: This program guarantees ** the recipient **2 transfers (minimum 3 embryos, fresh transfer/ KET and KET)**. A prerequisite for the guarantee is sufficient sperm quality. If there are no surplus embryos left, we guarantee a cryoembryo transfer of embryos from the oocytes of the matching donor and **the cryosperms of the recipient's partner**. The guarantee is valid for one year from the 1st transfer. ** If there is a medical factor on the part of the recipient (e.g. insufficient height of the endometrium), as a result of which the transfer could not take place, the cost of 1 straw will be borne by the clinic.

With the completion of the 13th week of pregnancy, the guarantee is fulfilled.

The Third Cycle Is on Us: If, after two cycles with donated oocytes (including follow-up CryoEmbryoTransfers - CET), you do not get pregnant (confirmed cardiac event), you will have the opportunity to undergo a third cycle treatment free of charge as part of the last used package. The package is considered exhausted after a CET has been performed on all embryos created within the given package (each CET is subject to payment as per the current price list).

Terms and Conditions:

- *The spermogram of the partner should meet the conditions of normozoospermia. Slight deviations from the norm will be consulted individually and are not necessarily an exclusion criterion.*
- *Exclusion criteria on the patient's side: Ashermann syndrome, congenital developmental defects or other existing severe uterine impairments - can be addressed individually during a consultation with a physician.*
- *The possibility of undergoing a third cycle free of charge does not apply if, after the previous treatment, a pregnancy occurs with proven cardiac action in the fetus. Failure of embryo transfer must be documented by negative hCG 14 days after embryo transfer or by ultrasound between 8-10 weeks with evidence of silent pregnancy.*
- *The third free cycle must be started within and no later than 24 months after the first embryo transfer of the first completed treatment.*
- *Legislative requirements for the treatment are met (age not exceeding 49 years, etc.)*

IVF cycle with donor oocytes - PACKAGE 3	EUR 7 500
Payment on the day of consultation (incl. preparation of treatment plan and medication, processing fee related with the donor selection)	EUR 200
Payment on the day of cryopreservation of sperm	EUR 400
Payment on the day of assigning the donor	EUR 2 500
Payment on the day of donor's oocyte collection (OPU)	EUR 3 700
Payment on the day of embryo transfer (ET)	EUR 700
<p>Included: Initial consultation, anaesthesia and recovery room for the donor, serology tests of the donor and the partner, hormonal profile, stimulation medication for the donor, coordination fee, spermogram, sperm preparation, sperm cryopreservation and vitrification of the embryos - 1 straw (each additional straw according to the current price list) and storage for 1 year, ICSI of all donated oocytes, prolonged cultivation, ET incl. ECHO catheter, Time-Lapse, EmbryoGlue, MFSS (Microfluidic sperm sorting), medication for the recipient from transfer to hCG test, expense for the donor, accommodation for 2 nights with breakfast and snack All-inclusive.</p>	
<p>Not included: Price for any KET (900 EUR) and each additional KET, as well as additional laboratory methods according to the current price list.</p>	
<p>Guarantee: This program guarantees ** the recipient 2 transfers (minimum 3 embryos, fresh transfer/ KET and KET). A prerequisite for the guarantee is sufficient sperm quality. Cryoembryo transfer of donor embryos (1 embryo)	EUR 1 600
Deposit upon preparation/reservation of the donated embryo	EUR 1 000
Payment on the day of embryo transfer (ET)	EUR 600
Included: Consultation, gynaecological examination, thawing of the embryo with subsequent KET, recovery room, ECHO catheter, medication from transfer to hCG test, snack All-inclusive.	
Not included: Additional laboratory methods (costs as per current price list).	
Cryoembryo transfer of donor embryos (2 embryos)	EUR 2 900
Deposit upon preparation/reservation of the donated embryos	EUR 1 000
Payment on the day of embryo transfer (ET)	EUR 1 900
Included: Consultation, gynaecological examination, thawing of the embryos with subsequent KET, recovery room, ECHO catheter, medication from transfer to hCG test, snack All-inclusive.	
Not included: Additional laboratory methods (costs as per current price list).	
ADDITIONAL LABORATORY METHODS AND PROCEDURES	
ICSI on single oocyte	EUR 150
ICSI up to 10 oocytes	EUR 350
ICSI to each oocyte exceeding 10	EUR 35
EmbryoGlue	EUR 200
Prolonged cultivation of embryos (over 48 hours)	EUR 300
Cryopreservation of sperm (storage fee for one year included)	EUR 320
Cryopreservation of embryos, oocytes including vitrification of 1 straw (storage fee for one year included)	EUR 420
Vitrification of each additional straw (added to cryopreservation)	EUR 100
Vitrification of a single embryo in a single straw	
Charge for storage of cryopreserved material for each commenced year	EUR 150
Charge for storage of cryopreserved material with positive STD tests or without STD tests for each calendar year commenced	EUR 250
Export of samples from our centre – administration fee	EUR 200
Time-Lapse (continuous monitoring of the embryos)	EUR 350
EmbryoGen	EUR 200
Microfluidic Sperm Sorting	EUR 250
Assisted hatching (regardless of the number of embryos)	EUR 200

SOCIAL FREEZING	
Social freezing – oocytes	EUR 1 800
Payment on the day of scheduling stimulation	EUR 500
Payment on the day of oocyte collection (OPU)	EUR 1 300
Included: Initial consultation, stimulation protocol, STD, gynaecological examination, oocyte collection, anaesthesia, recovery room, vitrification of up to 2 straws including storage for 3 years	
Not included: Stimulation medication.	
Vitrification of each additional straw (to be added to cryopreservation).	EUR 100
Completion of the IVF cycle after Social freezing	EUR 1 500
Included: consultation to complete the IVF cycle, gynecological examination, spermogram, sperm preparation, ICSI up to 10 oocytes, prolonged cultivation, ET, stationary, Echocatheter	
ADDITIONAL OUTPATIENT SERVICES	
Summary from medical records at own request	EUR 100
First consultation with gyneacologist	EUR 0
Additional consultation with gyneacologist / geneticist / urologist (personally, by phone, skype – 60 min)	EUR 100
Additional consultation with gyneacologist / geneticist / urologist (personally, by phone, skype – 30 min)	EUR 50
Ultrasound control	EUR 50
STD blood testing	EUR 80
Guarantee for STD confirmation	EUR 100
hCG	EUR 15
AMH blood test	EUR 40
PRG (Progesteron)	EUR 20
Blood group, Rh factor	EUR 20
Hormonal profile	EUR 45
Thyroid hormones	EUR 45
Entonox	EUR 30
Medication/ infusion application	EUR 40
General anesthesia	EUR 150
LBC – Cytology	EUR 60
Intrauterine insemination	EUR 400
Included: consultation, preparation of ejaculate and sperm analysis, insemination catheter	
Not included: Ultrasound control and medication	

ANDROLOGY	
Complete sperm analysis	EUR 100
Donor sperm sample	EUR 300
PREIMPLANTATION GENETIC TESTING	
Biopsy of cells for PGT regardless of the number of embryos	EUR 490
Preimplantation diagnosis of 24 chromosomes (PGT-A) by NGS method up to 4 embryos:	EUR 2 000
Preimplantation diagnosis of 24 chromosomes (PGT-A) by NGS method of 5-8 embryos:	EUR 3 000
Preimplantation diagnosis of 24 chromosomes (PGT-A) by NGS method of each exceeding embryo:	EUR 300
Preimplantation diagnosis of monogenic disease (by indirect genetic diagnosis – PGT-M)	
Method preparation, testing for the family (before 1st PGD cycle only)	EUR 500
PGD of embryos by PCR method	EUR 2 700
PGT-A of embryos recommended for transfer after PGT-M (price for each embryo)	EUR 300
PGT-M (karyomapping incl. PGT-A and PGT-SR) method preparation (paid only once)	EUR 1 700
PGT-M (karyomapping incl. PGT-A and PGT-SR) 1 embryo	EUR 440
PGT-M (karyomapping incl. PGT-A and PGT-SR) direct mutation detection	EUR 700
Not incl.: biopsy, prolonged cultivation, AH	
Endometrium Receptivity Array / Reprognostics Test	
ERA-1 Basic price - Examination of the first patient's sample (including interview, sampling including consultation with regard to the indication and the results of the examination, endometrial sampling pipeline, sampling kit, transport / postage)	EUR 1 100
ERA-2 Reduced price – Examination of the second sample - if the result of the first sample was pre- or post-receptive, as well as see ERA-1.	EUR 900
ERA-3 Reduced price – Third and each subsequent sample from the same patient – in the case of the third possibly further examination if the results of the first collection were pre- or post-receptive as well as see ERA - 1 and 2.	EUR 700
EMMA (Endometrial Microbiome Metagenomic Analysis)	EUR 900
ALICE (Analysis of Infectious Chronic Endometritis)	EUR 550

EMTRIO EndomeTrio: ERA + EMMA + ALICE Combination of both tests /EMMA, ALICE/ from one sample	EUR 1 500
Reprognostics test – 1 marker	EUR 245
Reprognostics test – 2 markers	EUR 345
Reprognostics test – 3 markers	EUR 440
Reprognostics – sample transport	EUR 110
Accommodation for 1 night/single room with breakfast – Hotel Plus	EUR 50
Accommodation for 1 night/double room with breakfast – Hotel Plus	EUR 80
Accommodation for 1 night/single room with breakfast – Cooperative	EUR 60-75
Accommodation for 1 night/double room with breakfast – Cooperative	EUR 90-105
Transport from/to the train station/airport	EUR 25
